

SOCHA BEAG

In addition to their special mixture of alternative pop / rock and soul in their compositions, the 4-piece band SOCHA BEAG is above all poetically packaged, and the highly critical view of the world in Socha's lyrics is of great relevance.

Socha deliberately refrains from the more tamer topics and, through her life experiences deals with current and future-oriented subject matter.

"Their voices are wound up in phonetic escapades, as if an iridescent lightshow from the 1970's had actually learned to sing",
wrote one critic at the "Darmstadt Echo".

Cosmopolitan life, the psychedelic music of the 70s and their focussed gaze on the changing times of today, characterize her musical background.

Born in Aachen and with deep roots in jazz, blues and rock, the key element of this musical manifestation is guitarist and composer Wolfgang.

All of these different elements and influences made the extraordinary connection between Socha & Wolfgang possible and led to a new band project in 2014.

The current live program, "Swoon" was created in the Autumn of 2016 and includes 23 songs.
